## About This Content

Okay, remember how a little while ago I was saying, "The soundtrack to Psychonauts is so good, you just have to buy it!" Well, this is a little awkward to say, but I had the wrong soundtrack. This is the one I meant. Not the other one. I mean, that one is fine, but THIS one is the really good one. You should buy this one. It has the music from the cutscenes of Psychonauts, without all of those annoying words or sound effects. They've been remixed and re-mastered by Maestro McConnell for your enjoyment. Don't tell the other soundtrack, but this soundtrack's my favorite. - Tim

psychonauts original cinematic score

I'm the first reviewer, wow :))

Well, this is Psychonauts music, so if you liked the game and wanna get nostalgic then buy both soundtracks and just dweive in. Might aswell lay on your back and close your eyes for a good therapy session.

And hey, Tim, maybe Psychonauts 2 will have a NewGame+ mode, eh? And more than three save slots :D. Where shall i begin?

The soundtrack for this game is pure gold in all its glory. Every single piece of music made for this game fits in perfectly with the levels and sounds amazing. Well done Double Fine. Very well done indeed.
